

FEDERAL · STATE · LOCAL

OUR COMMITMENT

Outsourcing solved. *Execution delivered.*

A prime contractor and project management integrator built to help federal, state and local agencies move from requirement to result.

OVERVIEW

Core Competencies & Organizational Capability

Agencies rarely struggle to define the work. They struggle to find, vet and chase a different vendor for every requirement — searches, quotes, insurance certificates, registrations, invoices, and someone accountable when a date slips. Life Plan Estates absorbs that.

Our organization was built around a single purpose: to serve as a reliable, scalable resource for state, local and federal government agencies. Our leadership team brings 10+ years of licensed real estate advisory experience, complemented by direct ownership and operational experience across business automation and growth, logistics, project management, and executive coaching. Through our diverse in-house capabilities, an extensive network of qualified partners, and project management expertise, we provide a single coordinated resource for sourcing, coordinating and executing a wide range of services and procurement needs. We continuously expand through strategic partnerships, vendor relationships and the acquisition of complementary capability.

Describe the requirement and you get back a compliant quote, a qualified team, and one point of accountability through closeout. Our objective is simple: one relationship, coordinated execution, and access to the resources needed to get the job done. We accept engagement as prime, as subcontractor to an established prime, or as a secondary, overflow or surge resource alongside an incumbent vendor.

01 — CAPABILITIES

What We Do

- Requirement-to-quote sourcing across multiple trades
- Subcontractor vetting, qualification & insurance verification
- Prime contract administration & oversight
- Compliance management — submittals, certifications, reporting
- Multi-site scheduling & field coordination
- Progress reporting & closeout documentation
- One accountable owner from award through acceptance

02 — SOURCING LANES

What We Deliver

- Facilities maintenance, repair & building services
- Building systems inspection, testing & compliance
- Fire & life-safety compliance programs
- Janitorial, custodial & grounds maintenance
- Painting, pressure washing & glazing
- Security systems & access control
- Logistics, equipment & supplies procurement

03 — EDGE

Differentiators

- One accountable point of contact across every category
- Compliant quote returned in 5 business days
- Multiple vetted firms per requirement, one relationship
- Prime, subcontract, backup, overflow or surge
- Georgia-based, metro Atlanta rapid response
- Single consolidated invoice across all locations
- Documentation built to survive an audit
